T 506 Sw / Resist  
N 409 Sw  
N 407 Sw / Perfect

The products distributed by the company mentioned above are black thermal transfer ribbons which are employed for printing of labels and food packaging.

They were examined by us according to the

Methoden zur Untersuchung von Kunststoffen, soweit sie als Bedarfsgegenstände im Sinne des Lebensmittel- und Bedarfsgegenständegesetzes verwendet werden, einschließlich der 62. Mitteilung des BfR zur Untersuchung von Hochpolymeren, Bundesgesundheitsblatt 50, 524 (2007), Stand vom April 2007,

- 2 -

40803 U 15

(Methods for testing plastics as far as they are used as consumer goods as defined by the Foodstuffs and Consumer Goods Act, including the 62<sup>nd</sup> memorandum of the BfR on the examination of high polymers, Bundesgesundheitsblatt 50, 524 (2007), state of April 2007),

for the composition as well as for the release of substances which might endanger health.

The analyses performed on the thermal transfer ribbons showed results which ensure that the labels and food packaging materials printed with them meet the demands of the

Regulation (EC) No 1935/2004 of the European Parliament and of the Council of 27 October 2004 on materials and articles intended to come into contact with food and repealing Directives 80/590/EEC and 89/109/EEC, Official Journal of the European Union L 338/4 of 13.11.2004, modified by app. no. 5.17 of the regulation (EC) No 596/2009 of 18 June 2009, Official Journal of the European Union L 188 of 18 July 2009, article 3,

as well as of the

Lebensmittel-, Bedarfsgegenstände- und Futtermittelgesetzbuch (Lebensmittel- und Futtermittelgesetzbuch - LFGB) in der Fassung der Bekanntmachung vom 3. Juni 2013 (BGBl. I S. 1426), zuletzt geändert durch Artikel 2 des Gesetzes vom 5. Dezember 2014 (BGBl. I S. 1975), §§ 30 und 31,

(Foodstuffs, Consumer Goods and Animal Feed Code (Foodstuffs and Animal Feed Code - LFGB) in the version of the notification of 3 June 2013 (BGBl. p. 1426), last amendment by article 2 of the law of 5 December 2014 (BGBl. I p. 1975), §§ 30 and 31),

as far as the influence of the thermal transfer ribbons is concerned.

Thus they may be used safely for the printing of labels and food packaging, provided that it is ensured by an appropriate printing technique that the printings do not migrate from the printing substrates onto the foodstuffs.

The packaging materials and labels manufactured with the black thermal transfer ribbons T 506 Sw / Resist, N 409 Sw and N 407 Sw / Perfect may safely come into direct contact with dry, moist and fatty foodstuffs as far as the mentioned ribbons are concerned.

This certificate of compliance represents the latest technical standard and is based on the certificate of compliance no. 36265 U 13 of 10 September 2013 in connection with a new partial examination of the product.

This certificate of compliance has a validity of 2 years and consists of 3 pages.

Staatlich anerkannter Sachverständiger
